ENERTEX Factory Charged ready to use Automotive Batteries

Enertex is a leading manufacturer of Automotive Batteries in Central India and has a workforce of 150 people. The company is well known for its high-quality products and produces all battery components in-house, including specially designed lead alloys, lead oxides, grid castings, pasted plates. Enertex began producing Industrial Batteries in the 1990s for applications like Automotive, Inverters, Traction, Stationary, and UPS.

Enertex offers a range of automotive batteries, including Silver and Gold ranges, with capacities ranging from 40Ah to 200Ah. These automotive batteries are designed to deliver instant cranking even at extremely low temperatures (High CCA). They are manufactured using state-of-the-art techniques and quality components and materials for reduced maintenance and extended battery life. Overall, Enertex is a reliable and high-quality manufacturer of automotive Batteries, with a long-standing reputation in the industry.

Silver Series: Low Maintenance (Requires Topping)

Gold Series: Maintenance Free (No Topping Required)

Special features Automotive Batteries:

FEATURES	ADVANTAGES
Rechargeable.	Can be reused multiple times, saving money & resources.
High cranking power.	Allows for reliable engine starting in a variety of conditions.
Resistant to vibrations.	Can withstand the constant motion and vibrations of a vehicle.
Durable.	Can last for several years with proper maintenance and care.
Easy to install.	Can be easily replaced when needed with minimal effort.

APPLICATIONS:

- Starting the engine.
- Powering the electrical system.
- Backup power, Powering accessories.
- Hybrid and electric vehicles.
- Providing power for audio systems and other aftermarket accessories.
- Providing power for the vehicle's computer systems Supporting advanced safety features such as collision avoidance and lane departure warning systems Powering the vehicle's lighting system, including headlights, taillights, and interior lights.

The company is certified with ISO 9001:2015 and ISO 14001:2015

SILVER SERIES

Low Maintenance

BATTERY NOMENCLATURE	NOMINAL VOLTAGE	REF C20 CAPACITY (Ah)	L (mm)	W (mm)	H (mm)	WARRANTY
